# Log of changes

Revision	Description	Files Revised	Items Revised
Revision 1	Paragraph A.16 in Annex A incorrectly stated 2023-24 was the year in which the transition from PIP to ADP would finish; this should have stated 2024-25 instead. The year was correctly reported everywhere else in the document and there is no effect on the forecasts.	Full report	<ul style="list-style-type: none"> <li>Paragraph A.16 in Annex A</li> </ul>
Revision 2	Outturn figures for disability benefits and Best Start Grant in 2020-21 were estimated using the monthly provisional outturn, rather than the annual provisional outturn. The 2020-21 outturn figures have been revised to match annual provisional outturn. This does not change the rounded figures in our report, only unrounded figures in the spreadsheets.	Chapter 5 – Social Security – Charts and Tables	<ul style="list-style-type: none"> <li>Figure 5.1: Summary of social security spending forecasts within Scottish Government portfolios</li> <li>Figure 5.2: Change in total social security spending forecasts since January 2021</li> <li>Figure 5.4: Social security spending forecasts</li> <li>Figure 5.5: Annual growth in social security spending (year on year growth)</li> <li>Figure 5.7: Change in social security spending forecasts since January 2021, by payment</li> <li>Figure 5.8: Change in social security spending forecasts since January 2021</li> <li>Figure 5.9: Comparison of social security spending forecast and BGAs</li> <li>Figure 5.10: Growth in social security spending on payments without a BGA</li> </ul>

		Chapter 5 – Social Security – Supplementary Tables	<ul style="list-style-type: none"> <li>• Table S.5.2: Forecast spending and number of people expected to receive Child Disability Payment</li> <li>• Table S.5.11: Comparison of social security spending forecasts and BGAs</li> <li>• Table S.5.12: Change in social security spending and BGA forecasts for 2020-21</li> <li>• Table S.5.14: Change in Attendance Allowance forecast spending since January 2021</li> <li>• Table S.5.16: Change in Best Start Grants forecast spending since January 2021</li> <li>• Table S.5.19: Change in Child Disability Payment forecast spending since January 2021</li> <li>• Table S.5.20: Change in Child Winter Heating Assistance forecast spending since January 2021</li> <li>• Table S.5.21: Change in Disability Living Allowance (Adult) forecast spending since January 2021</li> <li>• Table S.5.26: Change in Personal Independence Payment forecast spending since January 2021</li> <li>• Table S.5.31: Change in Severe Disablement Allowance forecast spending since January 2021</li> </ul>
Revision 3	Total social security spending for 2021-22 was incorrectly quoted in the summary infographic at £3,668 million, but correctly quoted in the summary and social security chapters at £3,672 million.	Full report	<ul style="list-style-type: none"> <li>• Visual Social Security: Social security spending</li> </ul>
		Report Summary	<ul style="list-style-type: none"> <li>• Visual Social Security: Social security spending</li> </ul>
		Quick Visual Guide	<ul style="list-style-type: none"> <li>• Visual Social Security: Social security spending</li> </ul>

Revision 4	The chart shows GDP returning to pre-pandemic levels in 2022 Q2. However, the dot marking this point was instead marking the point where Forecast GDP overtakes Trend GDP in 2021 Q4.
